Use your knowledge of number bonds to solve these missing number problems.

$$8 + \quad = 10$$

$$\quad + 4 = 10$$

$$9 + \quad = 10$$

$$3 + \quad = 10$$

$$\quad + 5 = 10$$

$$0 + \quad = 10$$

$$18 + \quad = 20$$

$$\quad + 4 = 20$$

$$9 + \quad = 20$$

$$3 + \quad = 20$$

$$\quad + 5 = 20$$

$$0 + \quad = 20$$

$$28 + \quad = 50$$

$$\quad + 37 = 50$$

$$19 + \quad = 50$$

$$\quad + 23 = 50$$

$$34 + \quad = 50$$

$$25 + \quad = 50$$

Use this side to jot a number line. Add the units first, then jump on in tens (where they are needed).
