

## Monday Sheets

Remember 'kilo' means 1000 so 1kilometre = 1000m

### Practice Sheet Mild

#### Converting between millilitres and litres

Convert the capacities written in litres to millilitres, and vice versa.

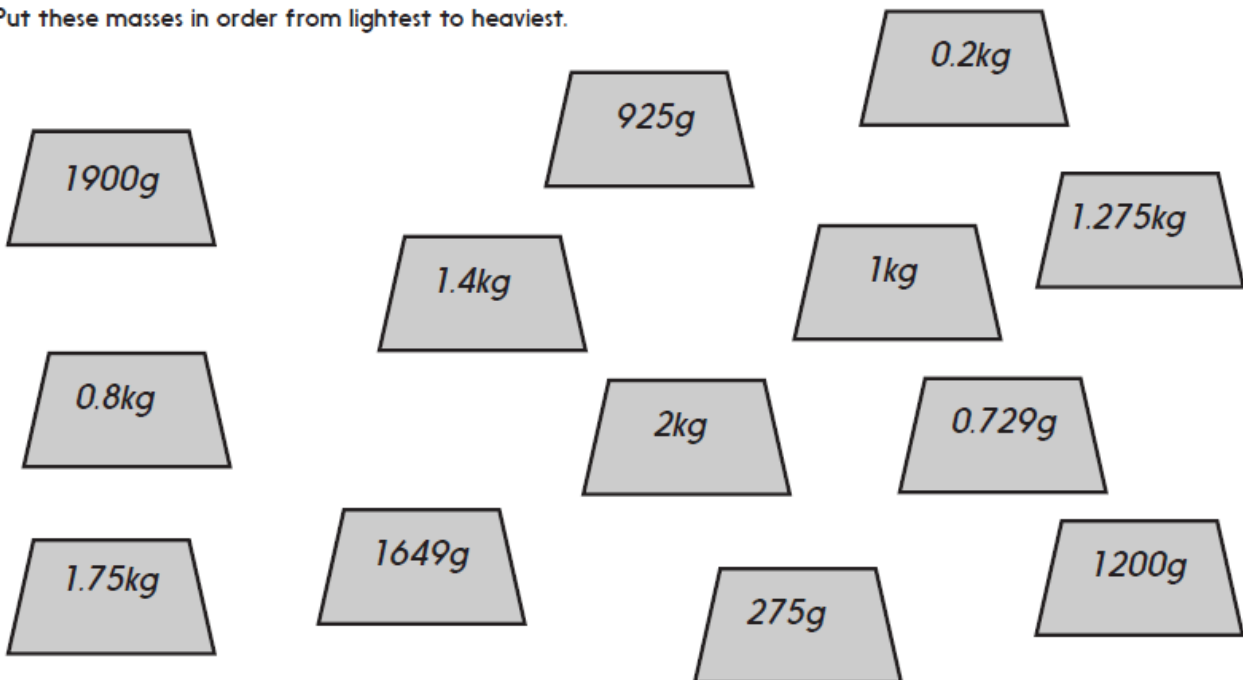

#### Challenge

Write all the capacities in order, from least to greatest.

### Practice Sheet Hot

#### Ordering mass

Put these masses in order from lightest to heaviest.

Choose the right level of challenge sheet for you- or do them both!
