

Homework Term 3 2026

Rowan Class

Happy New Year! Please read at least five times a week and complete some maths fluency activities each week on NUMBOTS. Use the ideas and activities in the topic grid for conversations and or investigations at home. Please do share any discoveries you make.

Please bring your homework to school every Thursday. Phonic reading books are changed on this day.

Please can you ensure your child has a P.E kit **every Monday** for gymnastics in the hall with Mr Mawn.

Many thanks,

Mrs Way

| Aim to read at home at least 5 times a week. This means that you will be awarded a raffle ticket and be put in the raffle box. The winner receives a £5 book token. Well done to Elijah who achieved this last term! | It is recommended that knowledge of the 2, 5 and 10 times tables is secured in Year 1. In Year 2 as well you need to know the related division facts for the 2, 3, 5 and 10 times tables. | Try to keep a weather chart showing the temperature for a week, especially during this icy winter spell. As an extra challenge can you design a poster to show what we could do to support wildlife during the winter? |
| <p>History</p> <p>Significant People</p> <p>We are looking at people that have made history. Florence Nightingale, Emily Davidson and Rosa Parks.</p> <p>Why do you think they made history?</p> <p>Please show your findings in any way you choose.</p> | | <p>Geography/Africa.</p> <p>Can you describe the location of Africa and name the surrounding oceans?</p> <p>Yr 2 Can you describe and compare features of two African Countries, Egypt and Nigeria in a written report?</p> <p>Yr 1 Can you describe the differences between everyday life in Nigeria with everyday life in Launton/Bicester in a poster?</p> |
